**B.1 Estimated Cost and Payment**

B.1.1 The estimated cost for performance of the work required under this contract is as stated in Section B Schedule.

B.1.2 The Contractor will be paid for the fixed fee stated in Section B under CLIN 0001 for the performance of work under the Contract and in accordance with the terms of the Contract Clause entitled, "FIXED FEE," (Mar 1997), FAR 52.216-8. The fixed fee together with the reimbursement of cost shall constitute full and complete consideration for the Contractor's service in connection with the work required and performed under this Contract.

B.1.3 Allowable cost shall be determined, and payment shall be provided, in accordance with the Contract Clause entitled, "ALLOWABLE COST AND PAYMENT."

**B.2 Payment**

The Contractor may submit public vouchers every two weeks for payment under this Contract. The fee will be payable at the time of reimbursement of cost at the same rate as the total Contract fee bears to the total estimated cost, subject to any withholding pursuant to provisions of this Contract.

**B.3 Funding**

B.3.1 The Government shall provide funds under this Contract covering the estimated cost and fee, on an incremental basis as provided for in the following funding schedule and pursuant to the Contract Clause entitled, "LIMITATION OF FUNDS." It is estimated that the incremental amounts are sufficient for the performance of work in each cited period. The Government may, at its discretion, allot such funds on an incremental basis within each fiscal year. The Contractor shall plan and execute the work required by this Contract to expend and/or commit funds compatible with the funding schedule below. Whenever the Contractor has reason to believe the funds allotted to this contract for any fiscal year are either insufficient or excessive for performing the work required in that fiscal year, the Contractor shall notify the Government.

**B.3.2 Incremental Funding Schedule**

<u>Performance Period</u>	<u>Amount</u>
Award through Apr 2004:	\$345,487
May 2004 through Contract Completion:	\$381,999
Total:	\$727,486

**B.4 Funds Allotted.** The amount of funds currently allotted to this Contract are \$345,487.

B.4.1 For the purpose of the Contract clause, "LIMITATION OF FUNDS," the total amount allotted by the Government to the Contract shall be the amount of funds allotted in paragraph B.4 above.

B.4.2 In performing this Contract, the Contractor is not obligated to incur costs, including fee, in excess of the amount of funds allotted to the Contract, as shown in this clause, nor is the Government obligated to reimburse the Contractor for cost and fee in excess of the amount of funds allotted to the Contract by the Government.

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C.1 Background.

This research effort is for the Contractor to advance the technology of automotive engine lubricants for application on low heat rejection, high temperature operation diesel engine technology. The Contractors research work will include innovative lubricant designs, developing a new high temperature lubricant formulation, and testing and compiling laboratory data, such as top ring temperature, lubricant sump temperature, friction, ring-liner wear, oil consumption, and crankcase blowby.

C.2 Scope of Work.

C.2.1 The Contractor, acting as an independent contractor and not as an agent of Government, shall provide the necessary facilities, material, personnel, equipment, and services to perform this scope of work.

C.2.2 Performance Requirements. The Contractor shall research, analyze, design, develop, and test a lubricant meeting or exceeding the following high power-density engine tribology parameters:

- 410 degrees Celsius (C) top ring temperature at reversal
- 0.08 to 0.1 ring-liner friction coefficient
- 0.1 milligrams per hour (MG/HR) maximum per cylinder wear rate due to friction
- 175 degrees Celsius (C) lubricant sump temperature

In addition, the lubricant must maintain efficient working viscosity for the duration of the engine's oil change interval of 200 hours minimum.

C.3 Testing and Analysis. The Contractor shall test and analyze the lubricant's performance, and shall accumulate data plotted at various engine loads and speeds, for the following tribology parameters:

- Oil film thickness, along the piston stroke
- Ring-liner friction coefficient
- Contact stress at piston ring and liner
- Temperature along the piston stroke
- Ring-liner shear stress
- Friction work
- Mean piston speed
- Wear
- Engine crankcase blowby the piston rings
- Engine oil consumption
- Projection of engine oil change interval
- Engine oil sump temperature
- Engine oil viscosity

C.3.1 The Contractor shall also test and analyze the piston ring motions in hydrodynamic and boundary lubrication modes, and calculate the oil film thickness, the friction and the piston ring and cylinder liner wear.

C.3.2 In addition, the Contractor shall build, test, and analyze a previously supplied TACOM in-cylinder lubrication design (i.e., oil flow through the piston pin) for increasing the oil film in the area of the top piston ring and liner.

C.4 Validation Testing. The Contractor shall validate the lubricant and engines tribology parameters, per paragraph C.2.2 above, using their laboratory test rig. In addition, the Contractor shall validate the lubricant and engine's tribology parameters, per paragraphs C.2.2 above, on a dynamometer test rig using a multi-cylinder production engine. The engine tests shall include full and part load operations with the lubricant at various engine revolutions per minute (RPMs).

C.4.1 The Contractor shall revise the lubricant formulation and additives if the validation tests necessitate the modifications. The goal of this analytical and experimental work is to perfect the engine lubricant to meet the requirements of paragraphs C.2.2 above, for a high power-density, high temperature operations diesel engine.

C.4.2 Duration of the Tests. The Contractor shall repeat the engine tests at various engine speeds and loads until the new lubricant can meet the requirements of paragraph C.2.2 above.

C.4.3 Notification of Testing. The Contractor shall notify the Contracting Officers Representative (COR) one week prior to starting validation testing, so the COR can observe the testing, if he's available.

C.4.4 Savings Estimate. The Contractor shall provide data on the projected total production cost per gallon of a single purchase of 100,000 gallons of the high temperature lubricant compared to the total production cost per gallon of a single purchase of 100,000 gallons of a standard lubricant (i.e., SAE weight 30 or 40). In addition, the Contractor shall provide the estimated savings from using the high temperature lubricant for 200 hours, due to improved engine performance and better fuel economy.

C.5 Deliverables.

C.5.1 Progress Reports. The Contractor shall prepare and deliver Contractor Status, Progress and Management Reports, in accordance with (IAW) Exhibit A, Contract Data Requirements List (CDRL, DD Form 1423), Data Item No. A001.

C.5.2 Technical Reports. The Contractor shall prepare and deliver a draft and final Technical Report IAW Exhibit A, CDRL, Data Item No. A002.

C.5.3 Presentation Materials. The Contractor shall prepare and deliver presentation materials IAW Exhibit A, CDRL, Data Item No. A003.

The Department shall not challenge such assertions unless information the Department provides demonstrates that the item, component, or process was not developed exclusively at private expense.

(c) Justification. The Contractor or subcontractor at any tier is responsible for maintaining records sufficient to justify the validity of its markings that impose restrictions on the Government and others to use, duplicate, or disclose technical data delivered or required to be delivered under the contract or subcontract. Except under contracts for commercial items, the Contractor or subcontractor shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a challenge under paragraph (e) of this clause.

(d) Prechallenge request for information.

(1) The Contracting Officer may request the Contractor or subcontractor to furnish a written explanation for any restriction asserted by the Contractor or subcontractor on the right of the United States or others to use technical data. If, upon review of the explanation submitted, the Contracting Officer remains unable to ascertain the basis of the restrictive marking, the Contracting Officer may further request the Contractor or subcontractor to furnish additional information in the records of, or otherwise in the possession

of or reasonably available to, the Contractor or subcontractor to justify the validity of any restrictive marking on technical data delivered or to be delivered under the contract or subcontract (e.g., a statement of facts accompanied with supporting documentation). The Contractor or subcontractor shall submit such written data as requested by the Contracting Officer within the time required or such longer period as may be mutually agreed.

(2) If the Contracting Officer, after reviewing the written data furnished pursuant to paragraph (d)(1) of this clause, or any other available information pertaining to the validity of a restrictive marking, determines that reasonable grounds exist to question the current validity of the marking and that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer shall follow the procedures in paragraph (e) of this clause.

(3) If the Contractor or subcontractor fails to respond to the Contracting Officer's request for information under paragraph (d)(1) of this clause, and the Contracting Officer determines that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer may challenge the validity of the marking as described in paragraph (e) of this clause.

(e) Challenge.

(1) Notwithstanding any provision of this contract concerning inspection and acceptance, if the Contracting Officer determines that a challenge to the restrictive marking is warranted, the Contracting Officer shall send a written challenge notice to the Contractor or subcontractor asserting the restrictive markings. Such challenge shall-

- (i) State the specific grounds for challenging the asserted restriction;
- (ii) Require a response within sixty (60) days justifying and providing sufficient evidence as to the current validity of the asserted restriction;
- (iii) State that a DoD Contracting Officer's final decision, issued pursuant to paragraph (g) of this clause, sustaining the validity of a restrictive marking identical to the asserted restriction, within the three-year period preceding the challenge, shall serve as justification for the asserted restriction if the validated restriction was asserted by the same Contractor or subcontractor (or any licensee of such Contractor or subcontractor) to which such notice is being provided; and
- (iv) State that failure to respond to the challenge notice may result in issuance of a final decision pursuant to paragraph (f) of this clause.

(2) The Contracting Officer shall extend the time for response as appropriate if the Contractor or subcontractor submits a written request showing the need for additional time to prepare a response.

(3) The Contractor's or subcontractor's written response shall be considered a claim within the meaning of the Contract Disputes Act of 1978 (41 U.S.C. 601, et seq.), and shall be certified in the form prescribed at 33.207 of the Federal Acquisition Regulation, regardless of dollar amount.

(4) A Contractor or subcontractor receiving challenges to the same restrictive markings from more than one Contracting Officer shall notify each Contracting Officer of the existence of more than one challenge. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer initiating the first in time unanswered challenge after consultation with the Contractor or subcontractor and the other Contracting Officers, shall formulate and distribute a schedule for responding to each of the challenge notices to all interested parties. The schedule shall afford the Contractor or subcontractor an opportunity to respond to each challenge notice. All parties will be bound by this schedule.

(f) Final decision when Contractor or subcontractor fails to respond. Upon a failure of a Contractor or subcontractor to submit any response to the challenge notice, other than a failure to respond under a contract for commercial items, the Contracting Officer will issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract pertaining to the validity of the asserted restriction. This final decision shall be issued as soon as possible after the expiration of the time period of paragraph (e)(1)(ii) or (e)(2) of this clause. Following issuance of the final decision, the Contracting Officer will comply with the procedures in paragraphs (g)(2)(ii) through (iv) of this clause.

(g) Final decision when Contractor or subcontractor responds.

(1) If the Contracting Officer determines that the Contractor or subcontractor has justified the validity of the restrictive marking, the Contracting Officer shall issue a final decision to the Contractor or subcontractor sustaining the validity of the restrictive marking, and stating that the Government will continue to be bound by the restrictive marking. This final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(2) (i) If the Contracting Officer determines that the validity of the restrictive marking is not justified, the Contracting Officer shall issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract. Notwithstanding paragraph (e) of the Disputes clause, the final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor of the longer period that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(ii) The Government agrees that it will continue to be bound by the restrictive marking for a period of ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. The Contractor or subcontractor agrees that, if it intends to file suit in the United States Claims Court it will provide a notice of intent to file suit to the Contracting Officer within ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. If the Contractor or subcontractor fails to appeal, file suit, or provide a notice of intent to file suit to the Contracting Officer within the ninety (90)-day period, the Government may cancel or ignore the restrictive markings, and the failure of the Contractor or subcontractor to take the required action constitutes agreement with such Government action.

(iii) The Government agrees that it will continue to be bound by the restrictive marking where a notice of intent to file suit in the United States Claims Court is provided to the Contracting Officer within ninety (90) days from the issuance of the final decision under paragraph (g)(2)(i) of this clause. The Government will no longer be bound, and the Contractor or subcontractor agrees that the Government may strike or ignore the restrictive markings, if the Contractor or subcontractor fails to file its suit within one (1) year after issuance of the final decision. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, that urgent or compelling circumstances will not permit waiting for the filing of a suit in the United States Claims Court, the Contractor or subcontractor agrees that the agency may, following notice to the Contractor or subcontractor, authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(iv) The Government agrees that it will be bound by the restrictive marking where an appeal or suit is filed pursuant to the Contract Disputes Act until final disposition by an agency Board of Contract Appeals or the United States Claims Court. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, following notice to the Contractor that urgent or compelling circumstances will not permit awaiting the decision by such Board of Contract Appeals or the United States Claims Court, the Contractor or subcontractor agrees that the agency may authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(h) Final disposition of appeal or suit.

(1) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is sustained-

- (i) The restrictive marking on the technical data shall be cancelled, corrected or ignored; and
- (ii) If the restrictive marking is found not to be substantially justified, the Contractor or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the restrictive marking and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the marking, unless special circumstances would make such payment unjust.

(2) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is not sustained-

- (i) The Government shall continue to be bound by the restrictive marking; and
- (ii) The Government shall be liable to the Contractor or subcontractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor or subcontractor in defending the marking, if the challenge by the Government is found not to have been made in good faith.

(i) Duration of right to challenge. The Government may review the validity of any restriction on technical data, delivered or to be delivered under a contract, asserted by the Contractor or subcontractor. During the period within three (3) years of final payment on a contract or within three (3) years of delivery of the technical data to the Government, whichever is later, the Contracting Officer may review and make a written determination to challenge the restriction. The Government may, however, challenge a restriction on the release, disclosure or use of technical data at any time if such technical data.

(1) Is publicly available;

(2) Has been furnished to the United States without restriction; or

(3) Has been otherwise made available without restriction. Only the Contracting Officer's final decision resolving a formal challenge by sustaining the validity of a restrictive marking constitutes "validation" as addressed in 10 U.S.C. 2321.

(j) Decision not to challenge. A decision by the Government, or a determination by the Contracting Officer, to not challenge the restrictive marking or asserted restriction shall not constitute "validation."

(k) Privity of contract. The Contractor or subcontractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors at any tier that assert restrictive markings. However, this clause neither creates nor implies privity of contract between the Government and subcontractors.

(l) Flowdown. The Contractor or subcontractor agrees to insert this clause in contractual instruments with its subcontractors or suppliers at any tier requiring the delivery of technical data, except contractual instruments for commercial items or commercial components.

The Contractor must comply with all Department of the Army Directives, AR 380-19, AMC Suppl 1 to AR 380-19 and Army Material Command (AMC) security directives, Corporate Information Office (CIO) and Directorate Intelligence Security Division, memorandums, and numbered messages. All new systems require accreditation and certification that connect to TACOM computer systems and must be approved by the CIO before connection is accepted. Personnel who require access to Sensitive But Unclassified (SBU) defense information because of their duties in accessing Automation Information System (AIS) equipment or software will be appropriately investigated based on the sensitivity of the Automated Data Processing (ADP) position held. ADP sensitivity designations are ADP-I for Critical-sensitive, ADP-II for Noncritical-sensitive and ADP III for Non-sensitive. Before contractor employee can obtain access to ADP hardware/software, an investigation must be completed.
2. If the contractor needs remote access to TACOM-Warren ADP systems and SBU information will be accessed during the contract, the contractor must use a National Security Agency approved method to encrypt the information if it is sent/received outside this Command. The use of a commercial Internet Service Provider for receipt of government information is prohibited. A Terminal Server Access Controller System (TSACS) Account must be established and used for government email and installed on a government machine.
3. The security measures below are consistent with Department of the Army security policies and directives and are required to protect the TACOM-Wide Network (TWNET). The goal is to ensure the confidentiality, integrity, and availability of Department of the Army automation assets and software and to reduce cracker, hacker, and malicious code attacks to the maximum extent possible.
4. Contractor personnel, who require access to SBU defense information because of their duties with an automated information system, will be appropriately investigated based on the sensitivity of the ADP position held. ADP sensitivity designations are ADP-I for Critical-sensitive, ADP-II for Noncritical-sensitive and ADP-III for Non-sensitive. Before assumption of duties, an SF85P or SF86 must be completed and sent by your Facility Security Officer (FSO) directly to Defense Security Service (DSS) for each individual requiring access. The contractor is responsible for providing the Electronic Personnel Security Questionnaire (EPSQ) receipt to AMSTA-CM-XSC, datafax (586) 574-6362. 5. Contractor personnel assigned to ADP II positions must complete a National Agency Check (NAC) or a National Agency Check with Inquiries (NACI) and a SF 86 and FD 258 (fingerprint card). These documents must be completed before access can be granted to a Department of Army automation network. Each contractor employee must submit a SF86 in the EPSQ format. The EPSQ software can be found at [www.dss.mil/epsq/index.htm](http://www.dss.mil/epsq/index.htm). Note: Local police departments will normally take fingerprints for a small fee. An alternative is to make an appointment with the nearest DoD facility that has a Security office trained and equipped to take fingerprints.
6. Each contractor employee who has access to TACOM computers must read and sign a copy of the Automated Information System Annual Security Briefing which can be obtained from your TACOM-Warren Information Assurance Security Officer (IASO).
7. The contractor will be required to submit application forms for network access.

It is the contractors responsibility to notify TACOM when their employee(s) with access to the TACOM TWNET terminate employment. It is TACOMs policy to delete the contractor employees TWNET account at the end of their employment with a contractor. However, TACOM is not responsible and has no employment relationship with contractor employees and will not be responsible for the actions of contractor employees who divulge commercial or proprietary information to others.
9. A remote connection to TACOMs systems requires an Accreditation and Certification process for each AIS. The accreditation request must be reviewed by the Information Assurance Manager (IAM) and then forwarded to the Designated Approving Authority (DAA) for final approval before connection is accepted.
10. In accordance with Department of the Army Directives, AR 380-19, and AMC Suppl 1 to AR 380-19, the contractor must have malicious code protection on the computers that are connected to the TWNET. Malicious code protection must be monitored daily for updates and immediate implementation. TACOM-Warren uses the most current version of Norton Anti-virus software and McAfee Anti-virus software.
